Our Philosophy

WE MAKE FOOD FOR PETS WITH LOVE TO PROVIDE THE BEST CARE

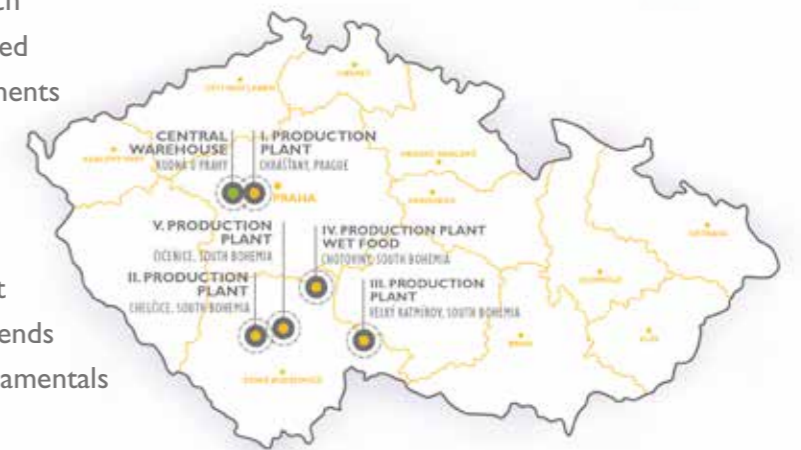

BRIT WORLDWIDE

The company's flagship brand is Brit, which first appeared in 2000. Today, it is exported to more than 80 countries on four continents and commands a significant share of the CEE, Scandinavian, and Baltic markets.

Only carefully selected high-quality ingredients go into the production of Brit pet foods. The brand follows the latest trends while remaining firmly rooted in the fundamentals of healthy nutrition and the company's philosophy: "we make food for pets with love to provide the best care". That means the brand makes use of innovations that have a positive impact on the quality of the products, on the health and happiness of animals, and subsequently on consumer perception.

At the beginning of 2018, Brit became one of only three European pet food brands to join the Pet Sustainability Coalition, a global association of brands that actively pursue long-term sustainability.

IF THEY COULD, CATS WOULD GO TO THE DELI... CATS ARE SPECIAL CREATURES – SO INDEPENDENT, SO UNCOMMUNICATIVE, SO HEADSTRONG, SO UNCONTROLLABLE.

HUMANS KNOW THEY'RE LIVING WITH CATS, BUT CATS DON'T KNOW WHETHER HUMANS ARE PREDATORS, PREY, OR JUST OTHER CATS. CATS ONLY KNOW HOW TO TRAIN HUMANS NICELY WITH THEIR PICKINESS. TASTE COMES FIRST.

CATS ARE PICKY MEAT EATERS, AND AS FAR AS THEY'RE CONCERNED, THERE'S NO SUCH THING AS 'ONE TYPE OF FOOD'. THE ONLY WAY TO WIN A CAT'S HEART IS TO FEED IT FOOD THAT MEETS THE STRICT REQUIREMENTS OF THIS SUPERIOR ANIMAL, SERVING MORE TASTY COMBINATIONS OF DRY AND WET FOOD WITH DELICATE SNACKS. IN SHORT, BY GIVING THEM ACCESS TO A SELECT AND HEALTHY DELICATESSEN.

Brit Fresh for Cats Excellent

Brit Fresh for Cats Excellent is ultra bentonite clumping cat litter ideal for cats' sensitive paws. Thanks to its fine structure and small particles of 0.5–2mm, ultra bentonite is extremely pleasant and desirable for cats. Fine grains are ideal for their sensitive paws and create a perfect dust-free and natural environment for cats to relieve themselves. Bentonite's excellent absorbency provides 100% control of liquids and odours. Perfect absorption and locking the liquid inside the clumps prevents the proliferation of bacteria.
